Detail of the Police Headquarters - Rovigo

A SINGLE PARTNER FOR YOUR GREAT PROJECTS

SICEA is a privileged interlocutor that accompanies the client in all phases of the work: from the planning to the choice of materials, from the realisation to the assistance.

Relying on the experience of SICEA, you place your projects in the hands of people who work with passion, skill and professionalism. The success of the company can only come from an effective and harmonious shared work, a solid organisation made up of people who pursue the objectives of the company with their work. SICEA places people at the centre of its work, understood as the vital energy of every project.

A CERTIFIED GUARANTEE

SICEA makes quality its strength by striving to achieve excellence in every action:
from the attention to detail to the use of eco-sustainable materials, from personal relationship
with the client, to support during all work phases.

Dimensioned systems for the future viability of the work

CONSTRUCTION & TESTING

Specialised technicians and engineers for sure performances

MANAGEMENT & MAINTENANCE

We design and plan according to the future needs of our clients

**THE RIGHT
PARTNER
FOR YOUR
CHALLENGES**

The background of the left page is a black and white photograph of a multi-lane highway at night. Light trails from vehicles are visible on the road. A large, semi-transparent red circle is overlaid on the center of the image, containing the word "INFRASTRUCTURES" in white capital letters.

INFRASTRUCTURES

The mobility of people and goods implies a large demand for infrastructures and means. Through its direct operating structure, SICEA ensures the a realization of primary and secondary urbanisation, roads and bridges, integrated and automated systems construction for passenger transport.

Starting from the evaluation of the initial project, SICEA intervenes on the old with great professionalism and a respect for the history, so as to carry out, by using the best technologies and cutting-edge materials, a quality work without forgetting the origin and originality of the structure.
